

CONTINENTAL BOTTLE COMPANY LTD

# INTRODUCTION

Since 1991 Continental Bottle Company Ltd has become the market leader as 'The' one stop solution to the fragrance, cosmetic, aromatherapy and home fragrance industries.

The company now has an extensive range of over 100 different styles of glass bottles as stock standards.

Complementing the bottles by also supplying premium quality surlyn, polypropylene and anodised closure and associated components.

Our bottles and closures are available in an incredible variety of designs and colours. If we do not have a design that fits your requirements, a custom mould facility is available. Continental Bottle Company Ltd specialises in offering a complete high quality service at extremely competitive prices.

Continental Bottle Company Ltd serves large, medium and small companies nationally and internationally.

Continental Bottle Company Ltd attributes its success to the fact that it offers a wide range of exceedingly flexible services.

Continental Bottle Company Ltd also offers a wide range of decoration techniques such as colour spraying, metallisation, etching, silk screen printing and transfers which all combine to create a unique brand image providing real shelf presence for our clients.

Products have been developed for many customers and ranges including Boots, Marks and Spencer, Next, Ted Baker, French Connection (FCUK), Space NK, Jo Malone, White Company and many more.

Since its conception the company has grown year on year due to the constant development and addition of new products to the already extensive range as well as offering our customers an exceptional pleasurable experience working with us.

Continuous investment in new innovative projects and designs means that Continental Bottle Company Ltd remains at the forefront of the industry.

Continental Bottle Company Ltd strives to be your 'Primary Packaging Partner.'

# *F*RAGRANCE BOTTLE RANGE

Continental Bottle Company Ltd offers one of the largest range of standard and stock standard bottles in the UK. Most designs are available in a range of sizes, from the smallest – just a few ml, to the largest – up to several litres. Most designs however include 50ml and 100ml sizes and are available in both crimp and screw neck. Some bottle designs incorporate cosmetic sizes and cosmetic jars within the range. In addition, we have a large range of small bottles that are perfect for gift sets. All bottles are standard designs and most are available from stock.

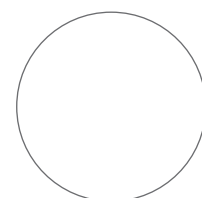

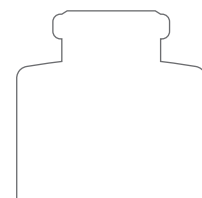

We offer a private design service utilising both fully automatic and semi automatic production methods. Please contact us for further details.

We offer products to suit all markets and budgets from super mass to super premium. Our bottles can be supplied plain or decorated. Decoration techniques include; multi colour spray, printing and acid etching.

Caps, closures and atomiser pumps can be supplied that perfectly complement your choice of bottle.

# *D*ECANTERS & DIFFUSER GLASS

We have a large range of standard designs which are available in a variety of sizes and neck finishes. Many of our designs are available in a multitude of sizes; most decanters are stock items.

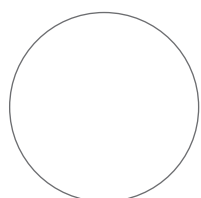

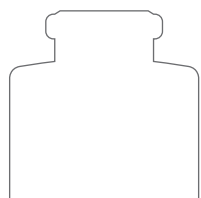

A complementary range of closures are also available.

As with other bottles, private tooling and a full decoration service is available.

Please feel free to contact us for more information.

# CAPS & CLOSURES

We have a large range of standard closures available suitable for all applications – fragrance, cosmetics, nail varnish and aromatherapy.

Continental Bottle Company Ltd's range is possibly the largest range of standard polypropylene and surlyn closures in the UK. All closures are available as either screw or push on.

A wide choice of injection moulded and compression moulded materials are used including urea, phenolic, polypropylene, surlyn, ABS, PCTA, and aluminium.

Closures can be supplied to suit crimp or screw applications.

Decoration facilities are available which include metallisation, hot foil stamping and printing.

Custom service available.

## Crimp Pumps & Shrouds

### Description

With a large range of pumps and shrouds we can cover most customer requirements. More specific requirements including beaded shrouds or special colour matched items are produced to order at our European factories.

Shrouds are available in a wide range of heights and diameters, making them suitable for any combination. We supply all the popular FEA crimp pump sizes for easy compatibility and to ensure the complete package is available at one source.

## Nail Polish Caps & Brushes

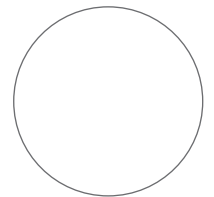

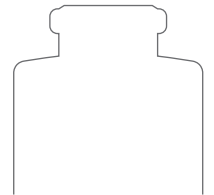

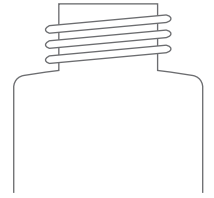

### *Description*

We can provide you with a wide choice of caps and brushes to compliment our nail polish bottle range. These are suitable for a variety of applications and specialist brushes and applicators are available on request. Please ask if you do not see what you require, as we have an extensive range of caps and applicators available to order.

# *G*LASS VIALS

# Custom Vial Manufacturing

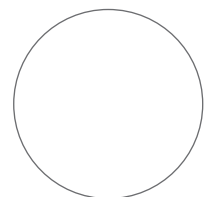

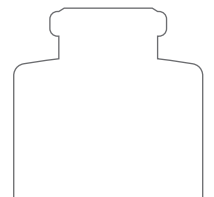

Development of Continental Bottle Company's tubular glass vial offering has significantly enhanced the company's ability to react to customers' needs.

Continued investment in standard stock ranges as well as our close working relationship with glass vial converters has led to reductions in lead times.

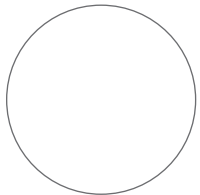

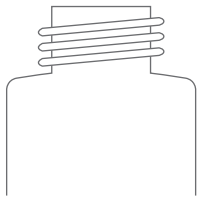

We cover a wide range of glass products that include dropper pipettes, crimp and screw neck vials for a variety of markets that include Cosmetics, Aromatherapy, Homeopathy, Pharmaceutical, Diagnostic and Biotechnology along with many Laboratory and research based units.

# DECORATION

Decoration has become increasingly popular with our customers and to make products stand out from the competition, more and more customers are requesting sophisticated decoration techniques to enhance their product marketability. Continental Bottle Company Ltd offer a wide range of services dedicated to decoration encapsulating the customers' design and technical remit.

## Frosting

This acid etching process gives the glass the “iced effect” mostly requested for skin care packaging.

## Hot Foil Stamping

Hot foil stamping really helps a closure to catch the light and bring attention to its individuality. Using highly accurate printing techniques this high reflective printing technology is more accessible than ever before.

## Metallisation

Metallisation makes it possible to reproduce the appearance of any metal or to give coloured coatings a metallic finish.

## Printing

Many clients request printing on bottles either to provide a more premium look than labels or to have an intricate design added that covers more of the surface area than a label can. Screen printing offers a high quality and robust solution for premium products.

## Spraying

This process sprays a light coating of colour onto the surface of the glass. This can either be solid colour or transparent coats, matt or glossy and part-coating to achieve a fade-out look. Continental Bottle Company Ltd are able to utilise all of these coatings.

## Transfer

Thermal transfer labelling provides additional decorative detail to be added, to enhance the premium look of your product.

# CUSTOM MOULDING

With extensive experience in design and manufacturing, private tooling could be the option that would enable your product to be distinguished within the marketplace.

Continental Bottle offer flexible and cost effective tooling for both bottles and caps.

We provide a complete project management service – taking concept to realisation, from brief to production.

Continental bottle has in house 3D Model capability. Models of your private design can be supplied in just hours.

Please feel free to contact us with any idea or concept that you may have.

With our assistance your vision can become reality.
